### **Madison County Vehicle Fleet Policy and Procedures**

- I. **Purpose** – To establish the general policy of Madison County for passenger and general purpose vehicles fleet management including purchase, administration, maintenance and replacement of County Vehicles. This policy is in addition to the established “Use of County Passenger Vehicles” and “Accidents Involving County-Owned Vehicles” policies.
- II. **Adopted** – July 13, 2010
- III. **Administration of Pool** – The County pool of vehicles will be administered by County Highway Superintendent who also serves as County Vehicle Fleet Manager. The Fleet Manager will recommend purchase of vehicles and special equipment to County Department Heads and the County Administrator, oversee maintenance of the fleet, determine depreciation and replacement schedules, and assess fleet and vehicle efficiency.
- IV. **Department Responsibilities** – Monitor employee use of vehicles, adhere to maintenance schedules provided by the Fleet Manager, assign vehicles within their Department, and ensure payment of all vehicle costs as required per this policy. Identify unmet or future needs of the Department’s vehicle fleet to the Fleet Manager.
- V. **Vehicle Purchase Procedures and Approval**

#### Routine/Planned Replacement

- a. General Fleet Vehicle Replacement – Vehicle replacement schedules will be determined by the Fleet Manager. Factors for replacement will include age, condition, use, and mileage. The Fleet Manager will forward a list of recommended replacements to the applicable Department Head and the County Administrator, annually, on or before July 1<sup>st</sup>.
- b. Department Request for Replacement of Existing Vehicles – Vehicle replacement requests due to unmet or future needs must be submitted in writing for Fleet Manager review by July 15<sup>th</sup>. Vehicle requests must include the vehicle identification number and written justification for replacement. A cost estimate including available funding or reimbursements must be included.

New Vehicle Requests – Requests for vehicles to be added to the existing fleet must be submitted in writing for Fleet Manager review by July 1st. A detailed needs assessment specifying the proposed use of the vehicle as well as the estimated number of miles per year must be included. A cost estimate including available funding or reimbursements must also be included.

Special Equipment - Any special equipment needs identified for a vehicle to be purchased must be detailed in the written vehicle request. A cost estimate including available funding or reimbursements must be included.

Final Approval – All fleet vehicle and special equipment recommendations made by the Fleet Manager will ultimately be approved or disapproved by the County Administrator and notification of such will be sent in writing to the applicable Department Head(s) no later than August 15<sup>th</sup>. Approved vehicles will be included in the upcoming year’s County budget within the Department’s Budget lines.

Purchase of Approved Vehicles – Once the budget has been adopted approved vehicles can be purchased by submitting a requisition in accordance with the current County Purchasing Policy.

## VI. **Preventive Maintenance (PM)**

Scheduling - PM shall be scheduled and performed at set intervals for all County Fleet Vehicles. Scheduling of PM appointments will be done by the Fleet Manager based on utilization of fleet management software. This software tracks all PM work needed for individual County vehicles based on mileage data collected when County employees enter odometer readings into the fuel system. The Fleet Manager will send a notice via e-mail to the appropriate Department when PM service is due and a time frame that the vehicle should be available for pick up to perform the repairs. If the vehicle cannot be taken out of service during that time frame, the Department must reschedule the appointment with the Head Auto Mechanic (Wampsville). Vehicles requiring PM work more than 2 weeks overdue may be restricted in accessing the fuel system.

Fuel System Mileage Entry – Because mileage is a key criterion in PM scheduling, odometer entries at the County fuel stations in Wampsville and Morrisville must be entered carefully and accurately by employees.

Vehicle Cleaning - Keeping vehicles clean is a critically important PM service especially in the harsh winter months with vehicle exposure to corrosive salt.

### a. Department Responsibility

- i. Exterior wash – The vehicle’s exterior must be washed once a month from October through the end of March. In the months of April through September vehicles are to be washed on an as needed basis. Vehicles can be washed at Precision Car Wash located at 217 Genesee Street, Oneida, NY 13421. Each car will be assigned a unique number provided in the glove compartment that will need to be entered into the terminal of the car wash. Employees are to choose the \$8 Deluxe wash for the required washes or the \$7 Express wash for the as needed washes. Departments will be billed by the Highway Department on a monthly basis. The Highway Department will budget the estimated annual cost to be included in the Central Garage Expense line assigned in each department.
- ii. Exterior wax – Any vehicles purchased after 1/1/2006 must be waxed on an annual basis by October 1. A wax can be scheduled by contacting Corrections Captain in the Sheriff’s Department. Marked Sheriff Department vehicles are exempted from this waxing requirement due to striping and will be washed with “wax as you wash” type soap.

iii. Interior clean – Vehicles will be vacuumed during regular PM service intervals. Vehicles carpet shall be shampooed on an as needed basis and must be requested via Highway Department County Vehicle Work Order as outlined in section VII. In addition, departments are free to clean the interior of vehicles on a as need basis. For any vehicle interior exposed to blood or bodily fluids please refer to the County Policy and Procedure “Exposure Control Plan.”

b. Employee Responsibility – Employees are responsible for keeping vehicles free of litter.

VII. **Corrective Maintenance (CM)** - If a vehicle needs corrective maintenance, the Department must complete a Highway Department County Vehicle Work Order and e-mail it to [laurie.winters@co.madison.ny.us](mailto:laurie.winters@co.madison.ny.us) and [shawn.degroat@co.madison.ny.us](mailto:shawn.degroat@co.madison.ny.us). The on-line form can be requested via e-mail or by calling x2221. Service can not be done without a completed work order.

Scheduling – Once a work order is received, CM will be scheduled by the Head Automotive Mechanic (Wampsville) when parts and labor are available. The Fleet Manager will give an estimate of repair time needed to the Department after initial inspection is done and the availability of parts and labor is assessed.

Mechanical Failure on Road (during regular business hours) - If a vehicle suffers a mechanical failure the Highway Administration Office must be notified immediately by calling 315-366-2221. The Highway Department will arrange to have the vehicle towed to the Wampsville Garage. A work order will need to be completed by the Department the next business day and e-mailed as noted above.

Mechanical Failure on Road (off hours) - If a vehicle suffers mechanical failure after hours the vehicle will need to be towed by a third party tower to the Wampsville Garage. A current list of available towing companies (including out of town towers) will be kept in the glove compartment of each fleet vehicle. A work order will need to be completed by the Department the next business day and e-mailed as noted above.

VIII. **Immobilized Vehicles** – If a vehicle is immobilized during work hours due to being stuck in the snow, ditch or other and can not otherwise be driven, the Highway Administration Office must be notified immediately by calling 315-366-2221. The Highway Department will arrange to have the vehicle towed out. If off work hours, the vehicle will need to be towed out by a third party tower. A current list of available towing companies (including out of town towers) will be kept in the glove compartment of each fleet vehicle.

IX. **Vehicle Snow Removal** – It is the responsibility of employees to clean off incidental snow/ice from the vehicle. In extreme weather conditions, snow/ice will be removed from the vehicles by the DSS mobile work crew.

X. **General Use County Vehicle Pool**

Location of Pool Vehicles - The Highway Department will store and maintain the pool vehicles at the Wampsville shop.

Pool Vehicle Scheduling - A daily schedule for usage of County pool vehicles will be maintained by the Fleet Manager. Vehicles may be scheduled for use in advance by calling the Highway Administration Office at x2221. Vehicles will generally be reserved on a first come first serve basis. Vehicles can be picked up during normal business hours of 8:00am to 4:00pm. If you need a pool vehicle for a departure prior to 8:00am you can pick up the keys at the Highway Administration Office the business day before your trip.

Return of Pool Vehicles - The pool vehicles must be refueled to full capacity after use, keys returned to the Highway Administration Office, and a fuel and mileage ticket must be completed for auditing purposes. Fuel and mileage tickets will be provided in the vehicles. If you are returning a vehicle off hours, park the vehicle where you picked it up and lock its doors. The vehicle keys must be returned in the drop box located near the side entrance of the Highway Garage.

Billing for Use of Pool Vehicles - The Fleet Manager will bill Departments monthly at a rate established by the Fleet Manager based on pool vehicle operation and maintenance costs. The rate shall be set as a \$/mile rate, adjusted annually. Departments will be notified of the rate for the upcoming year prior to the Department budget submission deadline. Departments should budget anticipated costs based on projected needs in the mileage line of their budget.

XI. **Reallocation of Fleet Vehicles**

General - The Fleet Manager will monitor vehicle use and mileages, utilizing the fleet management software. If there appears to be a more useful assignment for a particular vehicle, the Department currently assigned the vehicles will be notified and asked to verify the current needs of that particular vehicle. The Fleet Manager will annually recommend to the County Administrator when reallocation to another Department is appropriate. If a reallocation is approved by the County Administrator the Fleet Manager will work with the affected Departments to reallocate the vehicle.

Reallocation of Vehicles Purchased with State and/or Federal Funds - New York State and Federal programs have assignment restrictions on vehicle use and disposal of vehicles purchased with State and Federal funding. No vehicle purchased with such reimbursements can be reallocated to another Department without consultation of the affected Department Head(s) and County Administrator to determine if the vehicle can be reallocated in accordance with State and Federal reimbursement policy and procedure.

XII. **Removal of Fleet Vehicles** - The Fleet Manager will monitor vehicle use and mileages, utilizing the fleet management software. If a vehicle has an annual use of 5000 miles or less, such vehicle will be evaluated for possible removal from the fleet or reallocation to another Department.
